"Alout twelve years ago I was suddenly taken with a pain in the pit of the stomach which was so violent I could not walk straight," writes O. S. Copenhaver, Esq., of Mount Union, Huntingdon Co., Pa., (Box 222). "It would grow more severe until it caused waterbrash and vomiting of a slimy yellow water. I consulted a physician and he told me I had a form of dyspepsia and treated me for about six mouths with but little benefit. I still kept getting so weak I could scarcely walk. I then tried another physician and he told me my liver was out of order and that I had indigestion. He gave me a treatment and I got some better but only for a short time. I then took to using several widely advertised patent medicines but received no more than temporary relief while using. I then tried Dr. Pierce's medicines, using his Golden Medical Discovery. Thuman, with the 1st North Dakota Regiment and the 12th Infantry, is advancing along the coast of the lake from Taytay, incidentally clearing several small towns. Col. Whalley, with the 1st Washington Regiment, has landed on the peninsula above the town of Morong. The army suphasts, Nandan Contagon, and Casta cunboats Napidan, Covadonga and Cest re in a position to co-operate.

The original plan was to surround the forces of Gen. Pio del Pilar, so that he must retreat to the Morong peninsula, where capture would have been inevitable. This was not a complete success, because Gen. Hall's column found the country full handicaps to marching. There were veral streams to be bridged or forded, d the troops frequently floundered and the troops frequently floundered through morasses, waist deep in mud, an experience which, under the terrific sun, exhausted the Americans quits beyond en-durance. Most of Gen. Pio del Pilar's fol-lowers are supposed to have escaped north-ward, probably reaching Bosoboso, a strong-hood in the mountains. heid in the mountains.

Washington Regiment In.

Col. Whalley, having successfully completed his share of the movement, brought the Washington regiment to the river Pasig, where last night about midnight the men embarked upon cascoes and started for their destination under the convoy of the gunboats. They encountered a repetition of the experience undergone by almost every expedition on attempting to enter La guna de Bay, as the boats went aground in the shallows at the mouth of the river and were detained there several hours. Maj Gen. Lawton, in the meantime, was indefatigable, riding from one force to the other and supervising the leading of the es, and was without sleep for two

The men rolled themselves in their plankets and lay upon the wet grass for a

At 4 o'clock yesterday morning (Saturday) they began to cross the San Mateo river, and about noon easily repulsed a arge band of Filipinos about twelve miles ast of Manila, between Mariquine and Oregon regiment, the cavalry, the

A running fight was in progress all the afternoon. A Filipino outpost first attack-ed a few American scouts, whereupon the and easily drove the insurgents into the hills. Then the Oregon regiment moved across a wet, soggy rice field, in extended order, toward the hills, where it was believed a large force of the enemy had con-centrated. When the Oregonians were within about a mile of the position the Filipinos opened a heavy fire, the Ameri-cans replying and pressing forward more

Gunboats in Movement. After a few volleys the insurgents were

seen scattering over the crest of the hills in every direction, and their panic was increased when the artillery opened upon them and the shells began to explode all around them, undoubtedly causing great loss of life. The bombardment by the batteries and the musketry was maintained for nearly haif an hour, after which not a Flippino could be seen on the hills and not a shot came from the position.

The heat was intense, and the troops suffered greatly, but they continued on the trail taken by the fleeing enemy in the hope of driving them toward the lake Colonel Whalley, with two battalions of f the 12th Infantry, two guns of Scott's attery and a party of scouts, under Major elsenberger, left San Pedro Macati yesterday morning, and after fording the River Pasig, advanced northeast upon Cainta, while General Hall approached the town from the opposite direction, the gun-

operating in the river.

This important movement was kept so secret that the public thought the plan was to send General Ovenshine's lines forward against the insurgents who are intrenched south of the city.

The signal corps displayed admirable enterprise in laying wires with the troops, but the native sympathizers cut them be-hind the army, even within the American lines.

DREYFUS TO BE BROUGHT BACK. Craiser Sfax Will Bring the Noted

Prisoner to France. A dispatch from Paris last night says: The cabinet council this morning decided that the French second-class cruiser Sfax, now at Fort de France, Martinique, should proceed immediately and bring Dreyfus from the Isle of Devils to France. The cruiser is expected to arrive at Brest about June 26, when Dreyfus will be handed over to the military authorities and lodged in

the military prison at Rennes. His conviction having been annulled by the united chambers of the court of cassation, his military rank and title are restored to him. He will occupy an officer's cabin on board the Sfax and will be alowed on deck from 1 to 4 o'clock every

afternoon.

The papers point out that the court of cassation voted unanimously for revision, and only debated the process whereby it should be carried out. The decree of the ourt was communicated to Mme. Dreyfus the house of M. Hadamard, her father. She immediately sent the following dis-patch to her husband:

sion, with a new trial by court-martial. Our hearts and thoughts are with you. Let us share your immense happiness. Tenderest kisses from all."

ENSIGN DAVIS COMMENDED.

Recommended by Admiral Dewey for Advancement Ten Numbers.

The case of Ensign Cleland Davis pre sents the peculiar situation of a naval officer being recommended for promotion by the commander of an army corps, and this recommendation being approved by the admiral of the fleet.

Ensign Davis' exploit consisted in volunteering to take ashore a Colt automatic gun from the Helena and co-operate with Major Young of the Utah Battery in Mac-Arthur's advance on Caloocan.

He reported on February 27 with three marines, the regular gun crew, and remained ashore until April 4. During this time his gue and detachment accompanied the artillery in the forward movement, and at the attack on Cabalahan he practically saved a detachment of the 4th Cavalry from being wiped out in attacking an in-

surgent intrenchment.

At Quingua river he was temporarily in command of one of Lieutenant Fleming's guns during the latter's absence, and here, as in the other places, was under a victous fire. On finishing his shore service he was recommended for proportion by Major recommended for promotion by Major Young, with warm indorsements from Gen-eral MacArthur and Major General Otis. Admiral Dewey, in transmitting his re-port on Ensign Davis' expedition, says: "Ensign Davis was a volunteer for this

duty ashore with the army. He was engaged in all actions against the insurgents that took place on the northern front of the army between February 27 and April 4, and performed valiant service and ren-dered valuable aid to our troops. I there-fore commend him to the department and recommend that he be advanced ten num-

bers in his grade.

"The crew for the Colt's gun consisted of Thomas F. Prendergast and Privates Howard M. Buckley and Joseph Melvin, U. S. marine corps. These men performed their duty under most trying conditions in the most eventularly manner and december in most exemplary manner and deserve high praise. I hope the department will reward in a suitable manner their services."

MOB ATTACKS LOUBET

Riotous Demonstration on Occasion of Visit

The Trouble Grew Out of the Decision Dreyfus.

A dispatch from Paris yesterday says: President Loubet, accompanied by the premier, M. Dupuy, and the chief of the milltary household, General M. C. Bailloud, drove to the Auteuil races this afternoon, closely followed by Mme. Loubet, in a second landau. As they drove along the Avenue des Champs Elysees the crowd bowed respectfully, but on arriving at Auteur they were met by a violent demonstration. evidently organized and directed against the president.

There was a storm of hoots vells and cries of "Panama," "A bas Loubet" and "Vive l'Armee." A few shouts of "Vive Loubet" were drowned in the clamor.

A strong force of police kept order and arrested many of the disturbers, including a man who tried to force his way to

he president's carriage. During the second race the creased to violence, and was plainly di-rected by a committee of the League of collected with their supporters both before and behind the presidential stand, around which a formidable affray proceeded. During the grand steeplechase many blows were struck, and several po-licemen were injured in their endeavors to prevent an invasion of the presidential

At the crisis of the excitement, while shouts of "Vive l'Armee" and "Vive Der-oulede" were heard on all sides, Count Christiani rushed toward the president, brandishing a stick, and directed a blow against him, striking his hat. The crowd rushed upon Christiani, who only escaped severe handling by being taken under police protection

The principal leaders of the demonstration were M. Joseph Lasies, anti-Semite and nationalist deputy for Gers, and M. Firmin Faure, anti-Semite and nationalist

deputy for Oran, Algeria.

A special cabinet council was summoned at 9 o clock this evening to consider the situation, and important measures were concerted, to be submitted to the president at another council tomorrow, for the pres-ervation of order. The ministers, who were in session until 11 o'clock, maintain strict reserve as to the nature of these measures, but a semi-official note has been issued, which says: Further accounts show that the whole

race course, particularly in the inclosure, witnessed scenes of the wildest excitement. Comtesse Boni de Castellane, who was herself at the head of the jeunesse royal-Castellane and his brother Jean were ar his cane, smashing it on a policeman's head and causing the jeweled top to fly off, striking a journalist. He was detained in custody. Altogether about 130 arrests were made, one being that of M. Dansette, deputy mayor of Armentieres.

WORLD'S COAL OUTPUT.

Production and Consumption for the

the world during the past fifteen years are presented in some tables just prepared by the treasury bureau of statistics. These show that while the united kingdom is still the largest coal producer of the world, the United States is a close second, and if the United States is a close second, and if the present rate of gain is continued will soon become the leading coal-producing country of the world. The coal production of the united kingdom in 1897 was 202,000,000 tons, that of the United States 179,000,000 tons, Germany 91,000,000, France 30,000,000, Belgium 22,000,000, Austria-Hungary, 12,000,000, Russia nearly 10,000,000, Australasia nearly Russia nearly 10,000,000, Australasia nearly 6,000,000, Japan over 5,000,000, British India 4,000,000, Canada nearly 4,000,000, and Spain 4,000,000, While no other country reached 1,000,000 while no other country reached 1,000,000 tons in production. The United States, Stamps at purchaser's cost: \$250 denseit on recent. 2.000,000, while no other country reached 1,-000,000 tons in production. The United States, however, has gained much more rapidly during the fifteen years under consideration than has the united kingdom, or, indeed, any of the important coal-producing coun-tries of the world, her gain during the fifteen years being over 73 per cent, and that of the united kingdom less than 24 per

The announcement just made by the geo

The announcement just made by the geological survey that the coal product of the United States in 1898 was 219,836,000 short tons against 226,287,000 for Great Britain shows that the United States is rapidly gaining upon that country as a coal producer, and will soon become the leading coal-producing nation of the world.

As an exporter of coal, however, the United States takes low rank in proportion to its production, and stands fourth in the list of coal exporting countries. In 1897, the exportations of coal from the united kingdom were 48,000,000 tons, from Germany 12,000,000, from Belgium over 6,000,000, and from the United States a little less than 4,000,000, though in 1898 the quantity exported was slightly above 4,000,000 tons, as a coal-exporting country, her exports amounting to nearly 3,000,000 tons, while France exported about 2,500,000, Japan 2,000,000, and Canada about 1,250,000 in 1897.

France is the largest coal-importing country, her importations in 1897 being nearly 12,000,000 tons, while Germany imported 6.

try, her importations in 1897 being nearly 12,000,000 tons, while Germany imported 6,000,000, Austria-Hungary 5,600,000, Italy 4,-250,000, Canada nearly 4,000,000, Belgium nearly 3,000,000, Russia 2,500,000, Sweden over 2,250,000, the United States nearly 1,-500,000, and Australasia 1,000,000 tons, while no other country imported as much as 1,-

(00),(00) tons.

Great Britain is also the largest consumer of coal in proportion to population, her coal consumption in 1897 being 3.87 tons per capita, that of Belgium 2.70 tons, the Unit-ed States 2.42, Germany 1.58, Canada 1.25, France 0.98, Australasia 0.97, Sweden 0.50, Austria-Hungary 0.37, Spain 0.19, Italy 0.13, Russia 0.09, and Japan 0.07 of a ton per

According to these figures, which are summarized from a report of the coal production of the principal countries of the world, just issued by the British govern-ment, the United States now produces about 30 per cent of the coal of the world, the coal product of the fourteen countries enumerated in the tables being in 1897 566, 000,000 tons, of which the United States produced 179,000,000 tons, while in 1883 she produced but 27 per cent of the total coal product of the countries enumerated. As above indicated, the 1898 figures make an even more satisfactory showing for United States, whose product in long tons for that year is 196,282,000, against 202, 042,000 long tons produced in Great Britain.
